## We have special programs for you

Keystone First has special programs to help you stay healthy. These programs are provided to you at no cost. You do not need a referral from your doctor to join. If you have one of the health care conditions listed here, you may be able to participate in one of our special programs.

- Asthma
- Chronic obstructive pulmonary disease (COPD)
- Diabetes
- Heart disease
- Hemophilia
- HIV/AIDS
- Sickle cell anemia

These programs are interactive, which means we work with you directly. Call Keystone First Care Management at **1-800-573-4100 (TTY 711)** or go to **[www.keystonefirstpa.com](http://www.keystonefirstpa.com)** to learn more about:

- Who is eligible to participate
- How to use program services
- How to join or leave the program

When you call, let us know if you have multiple health issues. You may need complex care management. A health care provider, a discharge planner, or a care manager can also call Keystone First about care management for you.

To join one of these programs, you, your caregiver, or your primary care provider (PCP) can call us at **1-800-573-4100 (TTY 711)**.

# What to do if you ...

## ... Need health care services

Call your PCP for an appointment. Your PCP is the first person to call with any questions about your health. If you have a special health problem, your PCP may send you to a specialist. A specialist is a doctor trained to treat certain health problems. You have the right to ask for a second opinion if you are not sure about any medical treatment, service, or non-emergency surgery that is suggested for you. A second opinion may give you more information that can help you make important decisions about your treatment. A second opinion is available to you at no cost other than a copay.

## ... Need special services

Sometimes members have special medical conditions. Keystone First can help with dental or eye care; get you in touch with community organizations and behavioral health insurance companies that can help you; and help you find social service agencies that can work with you.

## ... Need care after hours or when your doctor's office is closed

If you need care when your doctor is not available and it is not an emergency, call the Nurse Call Line at **1-866-431-1514 (TTY 711)**, visit an urgent care center, or leave a message for your doctor to call you back. If it is an emergency, call **911** or go to the nearest emergency room.

## ... Need help finding a doctor

Check our online provider directory at **[www.keystonefirstpa.com](http://www.keystonefirstpa.com)** to find a doctor close to your home. If a Keystone First doctor in our specialist network cannot provide a medically necessary, covered service, we will approve for you to see a doctor out of the Keystone First network.

## ... Get a bill from a health care provider

As a Keystone First member, you don't have to pay for medically necessary covered services.\*

## ... Want to voice a dissatisfaction

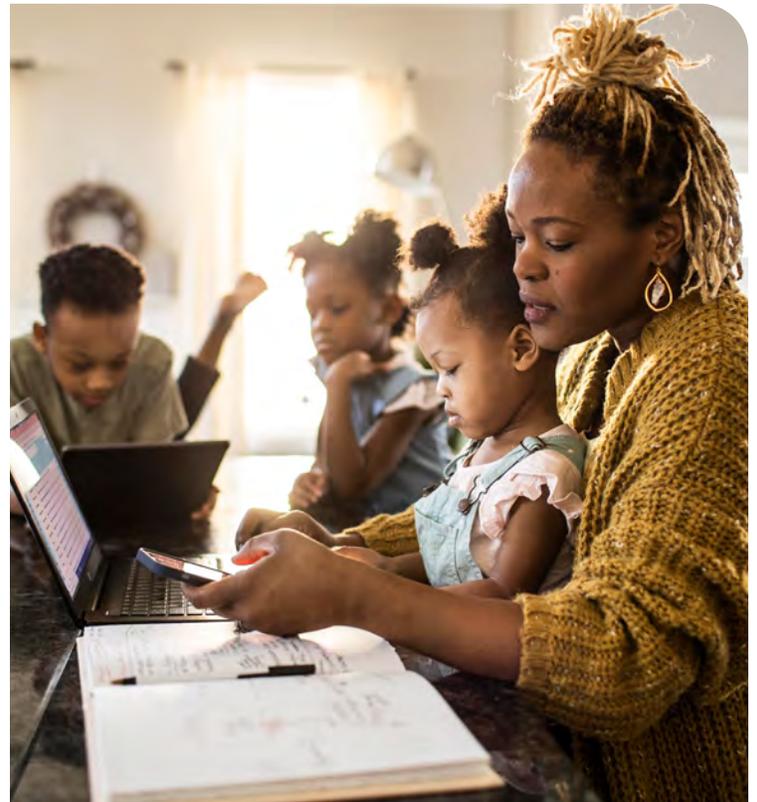

If you have questions or concerns about your Keystone First benefits or services, please call Member Services.

## ... Want to file a complaint or grievance, or request a fair hearing

We can help you with a complaint, grievance, or fair hearing. Call Member Services or follow the directions in your Member Handbook.

Need more information and don't have access to the internet or a Member Handbook? Call Member Services at **1-800-521-6860 (TTY 1-800-684-5505)**.

\*There may be times when you will have to pay a copayment.

## Outgrowing your pediatrician? Choose the right PCP.

You may be entering adulthood and responsible for your own health now. An important step to staying healthy is to pick a PCP that is right for you as you become an adult. Most pediatricians will see you until you reach age 18 and in some cases up to 21. It is important to talk with your pediatrician about choosing a new PCP. Also, make sure to ask your pediatrician for your medical records. Bring your medical records with you to your first visit with your new PCP. This will help your new PCP know your health history.

Need help finding a new PCP? Call Member Services at **1-800-521-6860 (TTY 1-800-684-5505)**.

## Keeping you healthy is our top priority

Soon some members will be getting the 2024 satisfaction survey in the mail. You may also be able to take the survey over the phone. If you get a satisfaction survey, please take a moment to tell Keystone First how we are doing. The survey takes less than 20 minutes.

## Our commitment to you

At Keystone First, we work with you and your PCP to make sure your benefits are used in the right and most cost-effective way. We make decisions based on the appropriateness of care and services and existence of coverage. We also do not give rewards or financial incentives to our staff who make decisions or to providers or anyone else for denying, limiting, or delaying health care coverage or services. Financial incentives for Utilization Management decision makers do not encourage decisions that result in underutilization.

Please call Member Services at **1-800-521-6860 (TTY 1-800-684-5505)** to learn more. We can provide language assistance if needed at no cost to you.

## Quality care for our members

At Keystone First our mission is to help people get care, stay well, and build healthy communities. Our Quality team supports this mission by monitoring the health care and services you and your family get.

Here are some other ways the Quality team helps our members:

- Reaches out to help you get needed care and health education
- Creates programs to serve members with special health care needs

- Surveys members and providers and uses the answers to improve our services
- Reviews the quality of care and services given by our providers like medical, dental, vision, and pharmacy

To view our 2023 Quality Improvement (QI) program accomplishments and goals for 2024, please visit **[www.keystonefirstpa.com](http://www.keystonefirstpa.com) > Members > Getting care > Quality Improvement (QI) Program**. # Domestic Violence and Pregnancy

Domestic violence can happen during pregnancy. The abuse is not always physical. There are many types of abuse. Some things abusers may do during pregnancy are:

- Make survivors miss check-ups.
- Cancel insurance.
- Keep survivors away from family and friends.
- Will not buy items for the baby.
- Insult a survivor's changing body.

Domestic violence survivors may be afraid to talk about what is going on. Pregnant survivors may worry about being judged. They may be afraid their abuser will find out they have been talking about it. Survivors are the experts in their safety. Their decisions should be respected.

Resources that may be able to help pregnant survivors are:

- Domestic violence programs have information about resources. They might be able to help with healthcare needs. They can discuss housing options. They can talk about safe next steps.

- Pregnant people can call the Healthy Baby Helpline. New parents can also call for support. The phone number is **1-800-986-2229**.
- “Presumptive Eligibility” is a program about health insurance. It can help pregnant people get healthcare. Pennsylvania's Consumer Service Center for Health Care Coverage has information about this program. Their phone number is **1-866-550-4355**. Local County Assistance Offices may also be able to help.

Find your local domestic violence program on the Pennsylvania Coalition Against Domestic Violence website. The services offered by these programs are free and confidential.
