Re: Update to the 2026 PerformPlus® Total Cost of Care (TCOC) for Primary Care Providers Manual

It has come to our attention that additional quarterly targets were inadvertently published for a historically annual quality measure, Developmental Screening in First Three Years, in the 2026 PerformPlus TCOC for Primary Care Providers Manual. Please note the following update:

Quality Measures

- Developmental Screening in First Three Years has been corrected from a quarterly target to an annual target.

We apologize for any confusion this error may have caused.

The updated 2026 PerformPlus TCOC for Primary Care Providers Manual is now available on our websites at www.keystonefirsttpa.com > Providers > Resources > Programs > PerformPlus® Total Cost of Care Program for Primary Care Providers and www.keystonefirstchip.com > Providers > Resources > Programs > PerformPlus® Total Cost of Care for Primary Care Providers.

If you have questions regarding this update, please contact your Provider Account Executive.

Sincerely,

Kim Beatty
Director Provider Network Management
