Date: October 21, 2025

Subject: Update to the 2025 Quality Enhancement Program (QEP) Manual

It has come to our attention that there was an omission in the 2025 QEP manual. Please note the following updates:

Quality Measures

The following Quality Measures have been added:

- Developmental Screening in First Three Years - Health Equity Black American Population
- Developmental Screening in First Three Years - Health Equity Hispanic/Latino Population

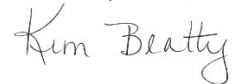

Health Equity Component

The Health Equity Component has been updated to include Developmental Screening in First Three Years.

We apologize for any confusion these omissions may have caused. The 2025 QEP Manual has been updated and is now available on our website at www.keystonefirstpa.com > **Providers > Resources > Programs > Quality Enhancement Program.**

If you have questions regarding this update, please contact your Provider Account Executive.

Sincerely,

Kim Beatty, Director Provider Network Management
