Welcome

You are one step closer to receiving electronic payments through Emdeon ePayment. Emdeon ePayment offers providers the ability to automate the payment receipt and reconciliation process and receive electronic funds transfer through Emdeon Payment Manager. Our ePayment solution includes a set of self-service tools that enable providers to manage enrollment, delivery preferences and access to ERA and payment data.

Before you get started on this 10-step setup process, please have the following information available:

1. Registration Code (provided in a recent Healthpayers USA packet, direct mail piece, etc.)
2. Two payments (Explanation of Payments) from at least one payer from the Emdeon payer list
3. Bank information for payment deposits (routing number, account number, bank name, branch, and address)

Upon completion of your enrollment for EFT services with Emdeon Business Services, you will be eligible to receive payments from all available Emdeon participating payers initiating EFT payments. As additional payer EFT connections are established, your checks from those payers, through no additional action from you, will be automatically converted to EFT and available for viewing through Emdeon Payment Manager.

If you have any questions during the enrollment process, please call 1-866-506-2830 and select Option 1.
