## TWO FREE LEAD TESTING AND REMOVAL PROGRAMS FOR OWNERS AND RENTERS

These two **Lead Hazard Control Programs** will remove lead-based paint hazards from rental and owner-occupied homes of families with low-incomes with children under the age of six or homes with pregnant women. You can also qualify if a young child doesn't live with you but spends at least 60 hours/year in your home. These two programs are similar except the income guidelines are different. See below for details.

# PROGRAMS, THE FOLLOWING FOUR PROGRAMS MAY HELP YOU GET THE LEAD OUT OF YOUR HOME.

This **Free Weatherization Program** for owners and renters is not specifically for removing lead hazards in homes, but the program can remove old windows with deteriorating lead-based paint, which are a major lead hazard. The program helps to reduce household energy costs through heater system repair, weather stripping and caulking, window repair or replacement and other services. See the income guidelines below.

These **Housing Rehabilitation Programs** are for low-income homeowners to do critical household repairs/ replacement for heat and hot water appliances, roofs, plumbing and electrical systems, and unsafe doors and windows, but they can also address problems that cause lead hazards and remove those hazards as part of the repair/replacement process. The three programs have different rules to qualify. See below for details.
